making and evolution of human intelligence (brain and body) from its earliest beginnings to the present day Required Texts: Clark, A (1997) Being There: Putting Brain, Body and World Together Again Cambridge MA: MIT Press Clark, A (2008) Supersizing the mind: embodiment, action, and cognitive extension New York: Oxford University Press

#### **The Amazing Brain - Prevent Child Abuse America**

The brain is a "use it or lose it" machine There are windows of opportunity in early brain development Some of these windows close very quickly For example, areas of the brain involved in vision are connected by 18 months of age If an infant's vision is blocked by a cataract or an eye patch at the time when the brain needs to be

## 14 Stages of Brain Development - bonding and birth

Stages of Brain Development by Gregory J de Montfort and Dr Rosemary Boon From a single fertilized egg of about 0.14 millimeters in diameter, to an adult human being, the neurophysiology of development of the brain and nervous system is nothing short of remarkable

### Whatever next? Predictive brains, situated agents, and the ...

He is the author of six monographs, including *Being There: Putting Brain, Body and World Together Again* (MIT Press, 1997), *Mindware* (Oxford University Press, 2001), *Natural-Born Cyborgs: Minds, Technologies and the Future of Human Intelligence* (Oxford University Press, 2003), and *Supersizing the Mind: Embodiment, Action, and Cognitive*

### Challenges to the Hypothesis of Extended Cognition

3 the mind extends into the world"4 Or as Clark has more recently asserted, "The intelligent process just is the spatially and temporally extended one which zig-zags between brain, body, and world"5 I initially characterized HEC in terms of cognitive states and processes, rather than in terms of mental states and processes, but also at issue is the extension of the mind into the

### THE STONE Out of Our Brains

brain Or as the Pixies put it: Where is my mind? Way out in the water, see it swimming Andy Clark is professor of logic and metaphysics in the School of Philosophy, Psychology, and Language Sciences at Edinburgh University, Scotland He is the author of "Being There: Putting Brain, Body...
